You are studying the climate of different regions of South America in your language class. Your teacher assigns you to writing a short weather report using a chart from the web or a newspaper. You decide to look up the weather for the next four days in Sao Joao do Jaguaribe where your class has a sister school. Look at the chart and write about the weather. Write at least five sentences.

The weather for Sao Joao do Jaguaribe:

The weather today

Rating: use generic rubric for novice writing or adapt it to this task. A checklist for vocabulary use, number of sentences and accurate spelling could also be used to rate the student’s work.
