Homework Due on the PowerPoint Tutorial Day / Group Work Day

Please do the following collaboratively with your partner:

- I. Finalize the selection of the sites that you will be working on for your final presentation

We will be working on the comparative analysis of the following sites (remember, work on only 1 text on each site):

Site 1 Name _____

Site 1 URL _____

Site 2 Name _____

Site 2 URL _____

- II. Read the texts on the sites (one text only, as the links to the sites lead to only one text or one chapter of a larger text).
- III. Look up unfamiliar words and put together a list of these words and their English translations, using a Russian-English dictionary (attach additional sheets to this handout)
- IV. Identify any colloquialisms and/or specialized words that are not in your dictionary* and put together a list of these words, to ask your instructor (attach additional sheets to this handout)

***Note:** Most advice texts are written in a conversational style, and some expressions that occur in these tasks are not listed in general dictionaries. Therefore, it is likely that you will need to meet with your instructor in conferences to ask him or her about these expressions.
