

Rubric for Animal Poster Project

Lección 2 – Animal Poster

Assessment: Students create a poster for the classroom that displays pictures or drawings of 3 different animals that live in the rain forest. Vital statistics should be included for each animal such as type, habitat, size, food, etc. Students will then answer 5 questions about each of the animals and one additional inquiry “Describe la importancia cultural de uno de los animals”.

	Question/Answer-Accuracy and Detail	Oral Description-Language Control	Poster Content
4	Questions are answered accurately and with sufficient detail	Students use nouns and verbs correctly in short sentences and are generally able to pronounce vocabulary correctly with little hesitation	Display includes all of the necessary data and additional data on each animal and is attractively displayed and well-organized
3	Questions are answered accurately but few details are provided	Students use nouns and verbs correctly, but may have minor errors in pronunciation and some hesitation	Display includes the necessary data, is displayed with neatly, and shows organization but little creativity
2	Questions are answered accurately but no details are provided	Students use nouns and verbs with some accuracy and have several errors in pronunciation and some hesitation	Display includes the necessary data and is displayed with some organization, but is lacking neatness and/or effort
1	Questions are not always answered accurately and no details are provided	Students rarely use nouns and verbs accurately and have many errors in pronunciation and frequent hesitation, making speech difficult to understand	Display includes the necessary data but is not organized or neat and lacks of effort
