

# Bravo! Vous avez fini!

Maintenant, vous pouvez choisir une activité avec la Leçon Supplémentaire.

Cliquez sur "Leçon 4: Supplémentaire" pour voir les photos.

You may select from one of the following activities.

If you have finished more than two days early, you may pick any one of these activities (although #2 or #3 is recommended for the highest grade).

If you have finished one or two days early, you must do #1 as your activity.

## 1. Captions

This activity involves writing French captions for the pictures on the webpage you have before you. Each photo is numbered, and you may proceed from 1-15 or in the order preferred. You must work individually. Your captions should feature:

- only French writing
- at least five complete sentences
- imaginative thinking

You will be graded on your French, your communicative skills, and your completion.

## 2. Skits

You must work in partners or groups of three (not more) for this activity. With your partners, you should write and perform a skit based on Gargie's adventure. No memorization is necessary, but it is recommended! This skit must feature:

- as many lines as possible of dialogue for each person (10 each for full credit)
- good pronunciation and grammar
- imaginative thinking

You will be graded on your French, your communicative skills, and your completion.

## 3. Illustrated Books or Cartoons

You must imagine and write a children's illustrated book or cartoon based on Gargie. You may work alone or in pairs on this activity. Look at the pictures on the Leçon 4 web page - you may use them as illustrations, inspirations, or nothing at all. The book must feature:

- only French writing
- five sentences a page, at least 5 pages total for individuals and 10 for pairs
- imaginative thinking

You will be graded on your French, your communicative skills, and your completion.

**Once you have chosen,  
please see your teacher for ideas and direction.**
